

Chapter 13 Petition for Klaus Marcus Bucklemund. Page 11 - Firearms

FIREARMS Value according to Klaus Marcus Bucklemund
SMITH AND WESSON REVOLVER .357 (\$150)
SKS RIFLE (\$100.00)
SMITH AND WESSON 45 ACP HANDGUN \$400
TOTAL \$650

COMMENTS on FIREARMS Actual Values
SMITH AND WESSON REVOLVER .357 NEW PRICE CIRCA \$1000
SKS ASSAULT RIFLE SECOND HAND PRICE UP TO \$550
SMITH AND WESSON 45 ACP HANDGUN NEW PRICE CIRCA \$900
TOTAL \$2450

Klaus Marcus Bucklemunds Value of weapons as a percentage of potential true value is only 25%
Even if the second hand price of the handgun and revolver is only 50% of the new price, the values assigned in the petition are excessively low!

These guns are large calibre guns meant to stop people by killing or maiming them. They are not purely defensive. Although it can be argued justifiably their potential ability to kill depends largely on how they are used, they will have a higher percentage kill rate because of the amount of damage they can do with a single round. The SKS is a semi automatic assault rifle similar to the AK47 used by armies and terrorists worldwide. It must be questioned why this Klaus Marcus Bucklemund owns an 'ASSAULT' rifle?? And what its intended use is??

SMITH AND WESSON REVOLVER .357 is commonly used by Law enforcement agencies throughout USA

SMITH AND WESSON 45 ACP HANDGUN is commonly used by USA armed forces

SKS rifle has been in use with all the ex Soviet Bloc countries as well as the Chinese Army

These major users of these weapons have chosen them because of their effectiveness or to put it bluntly, they are good at killing people when required to do so!
